

European Foot Institute Re-Launches in UK

By Rosie Wilson

UK foot and ankle patients are being presented with more surgical options with the re-launch of a UK based European Foot Institute clinic.

Situated in Hove, the European Foot Institute's new UK clinic is now being headed by German orthopaedic consultant, Mr Dirk Nowak.

When the European Foot Institute began providing clinical services to UK patients in 2007, it was originally headed by Mr Dieter Nollau. With Mr Nowak taking the reins, a new clinic has been set up in Hove to provide cutting edge European foot and ankle procedures to UK patients.
